ICHOM Set

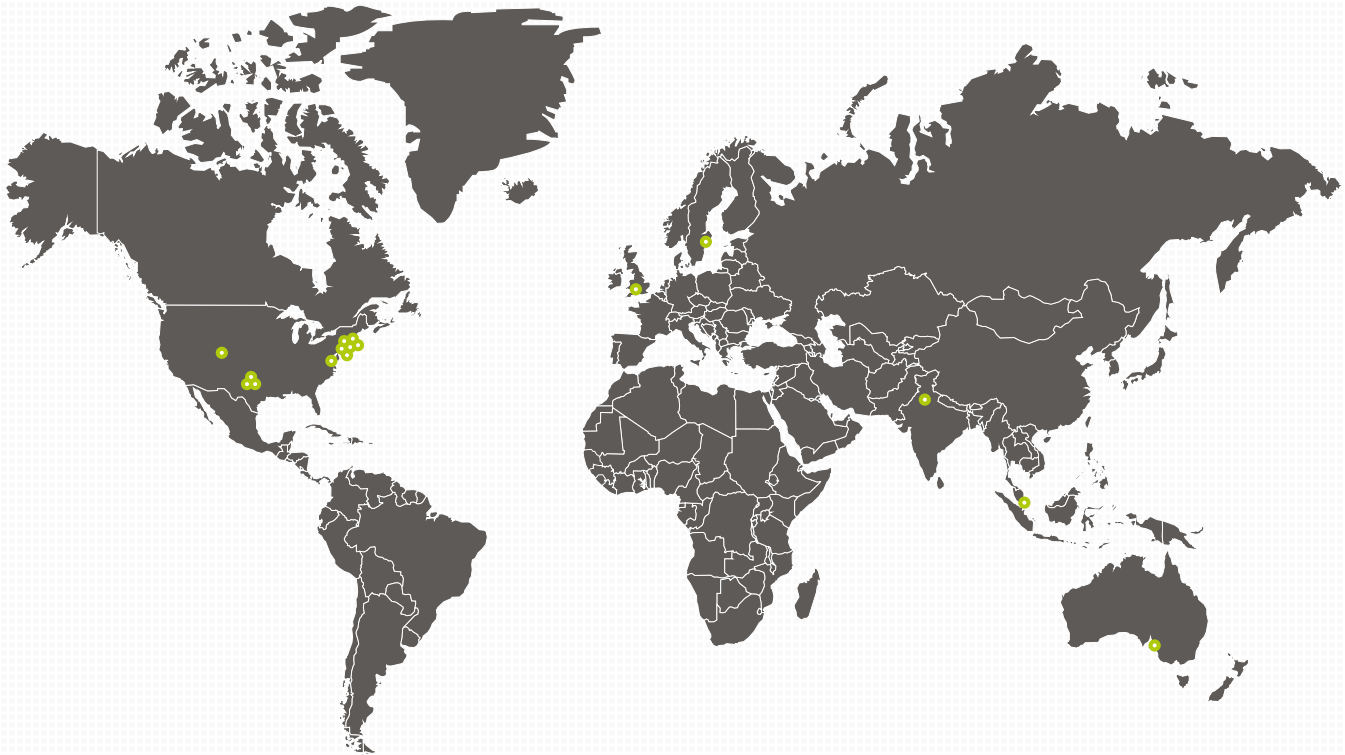

APPROACH

The ICHOM Set is the result of hard work by a group of leading physicians, measurement experts and patients together with the non-profit organization ICHOM. It represents the outcomes that matter most to patients with coronary artery disease. We urge all providers around the world to start measuring these outcomes to better understand how to improve the lives of the patients they serve.

The Process

The Working Group

Australia

John Beltrame | Queen Elizabeth Hospital, Adelaide

India

Bishnu Panigrahi | Fortis Healthcare

Singapore

Terrance Chua Siang Jin | National Heart Centre

Sweden

Tomas Jernberg | Swedeheart

United Kingdom

Clive Weston | Myocardial Infarction National Audit Programme

United States

Erica Spatz | Yale
Bob McNamara | Yale
Larry Sadwin* | American Heart Association
Mark Schoeberl | American Heart Association
Louise Morgan | American Heart Association
David Shahian | Massachusetts General Hospital, Harvard Medical School

Robert Yeh | Massachusetts General Hospital
Jack Lewin | Cardiovascular Research Foundation
Paul Heidenreich | American Heart Association/American College of Cardiology
John Rumsfeld | Veterans Health Administration
Robert Jesse | Veterans Health Administration
