Version 5.01 Revised: January 2023
Approach

The ICHOM Set is the result of hard work by a group of leading physicians, measurement experts and patients together with the nonprofit organization ICHOM. It represents the outcomes that matter most to patients with coronary artery disease. We urge all providers around the world to start measuring these outcomes to better understand how to improve the lives of the patients they serve.

The Process

The Working Group

Australia
John Beltrame | Queen Elizabeth Hospital, Adelaide
India
Bishnu Panigrahi | Fortis Healthcare
Singapore
Terrance Chua Siang Jin | National Heart Centre
Sweden
Tomas Jernberg | Swedeheart
United Kingdom
Clive Weston | Myocardial Infarction National Audit Programme
United States
Erica Spatz | Yale
Bob McNamara | Yale
Larry Sadwin | American Heart Association
Mark Schoebert | American Heart Association
Louise Morgan | American Heart Association
David Shahian | Massachusetts General Hospital, Harvard Medical School
Robert Yeh | Massachusetts General Hospital, Jack Lewin | Cardiovascular Research Foundation
Paul Heidenreich | American Heart Association/American College of Cardiology
John Rumsfeld | Veterans Health Administration
Robert Jesse | Veterans Health Administration
