When using this set of outcomes, or quoting therefrom, in any way, we solely require that you always make a reference to ICHOM as the source so that this organization can continue its work to define more Sets of Patient-Centered Outcome Measures. Version 4.1.0 Revised: February 2023
Approach

The ICHOM Set is the result of hard work by a group of leading physicians, measurement experts and patients together with the non-profit organization ICHOM. It represents the outcomes that matter most to patients with low back pain. We urge all providers around the world to start measuring these outcomes to better understand how to improve the lives of the patients they serve.

The Process

The Working Group

Australia
Beth Morrison | Newro Foundation
Michelle Davies | St. Paul’s School
Richard Kahler | BrizBrain and Spine

Denmark
Martin Gehrchen | University Hospital of Copenhagen, Rigshospitalet

Netherlands
